

# Chippewa Local Schools

## Annual Asbestos Management Notice

In compliance with the U.S. Environmental Protection Agency's Asbestos Hazard Emergency Response Act (AHERA, 40 CFR Part 763), Chippewa Local Schools is providing annual notification regarding the presence and management of asbestos-containing materials (ACM) within district buildings.

**Asbestos Management Plan Availability** Chippewa Local Schools maintains an up-to-date **Asbestos Management Plan** for each building in the district. These documents include:

- Locations of known or assumed asbestos-containing materials
- Results of inspections and periodic surveillance
- Records of three-year re-inspections
- Response actions taken to prevent or reduce asbestos hazards
- Ongoing operations and maintenance procedures

These plans are available for public review **during normal school hours** at the Chippewa Local Schools Administration Office:

**Chippewa Local Schools – District Office**  
**56 N. Portage St.**  
**Doylestown, OH 44230**

To request access or copies, please contact the district office.

### Recent Inspection and Monitoring

As required by federal law:

- The most recent **six-month periodic surveillance** was conducted on **11/19/25**.
- The most recent **three-year re-inspection** was completed on **12/2/24** by an accredited asbestos inspector.

Findings indicated that **all asbestos-containing materials identified in district facilities remain in good condition**, and the district continues to follow all recommended maintenance and monitoring procedures. Any response actions performed will be documented in the management plan.
