 Student Wellness and Success & Disadvantaged Pupil Impact Aid (DPIA) Plan
 Fiscal Year 2025-2026**

Leadership Team:
 Superintendent: Tim Adams

 Deputy Treasurer: Ken Gasser

District Name	Chippewa Local Schools

Board Approved	Board Reviewed: March 9, 2026

I. Purpose and Alignment

This plan outlines the strategic utilization of Disadvantaged Pupil Impact Aid (DPIA) and Student Wellness and Success Funds as mandated by **Ohio Revised Code 3317.25**. The goal of these funds is to provide "wraparound services" that address physical, mental, and academic barriers to learning for at-risk and economically disadvantaged student populations.

II. Mental and Physical Health Services (50% Mandate)

In compliance with state law requiring at least 50% of combined funds be spent on mental or physical health, Chippewa Local Schools prioritizes the "Whole Child" through the following:

- **Tiered Behavioral Support:** The district utilizes specialized counseling staff to provide direct mental health services, crisis intervention, and social-emotional coordination. This internal clinical model allows for higher-frequency support for students in need.
- **Contracted Nursing Services:** Through a partnership with the Educational Service Center (ESC), the district provides professional nursing care to manage chronic health conditions, conduct screenings, and ensure students are physically healthy and ready to learn.
- **Clinical Coordination:** Funds support the coordination of clinical services for students requiring intensive behavioral health interventions.

III. Academic Intervention and Literacy Support

The remainder of the DPIA allocation is dedicated to closing the achievement gap through evidence-based academic supports:

- **Science of Reading Alignment:** All literacy-related expenditures are strictly aligned with Ohio's Science of Reading mandates. This includes the purchase of evidence-based instructional materials and consumable workbooks for specialized reading intervention.
- **Digital Progress Monitoring:** The district utilizes universal screening and progress monitoring software to track student growth in real-time. This data allows staff to adjust interventions immediately for students not meeting grade-level benchmarks in ELA and Math.
- **Adaptive Learning Platforms:** Funding supports supplemental adaptive digital tools that provide individualized practice for students in ELA and Math, specifically targeting foundational skill gaps identified through diagnostic testing.

IV. Student Safety and Community Partnerships

Chippewa Local Schools coordinates these services in formal partnership with the following organizations:

1. **Doylestown Police Department:** Collaborating on school safety initiatives, security services, and drug prevention education to ensure a secure learning environment.
2. **OHuddle:** Providing high-impact mentorship and social-emotional support for students in the Junior and Senior High School.
3. **Educational Service Center (ESC):** Providing specialized physical health services and professional nursing staff.
4. **Wayne County Mental Health Board:** Serving as a primary consultant for prevention and treatment coordination.

V. Anticipated Impact

By integrating clinical health supports, local safety partnerships, and data-driven academic interventions, the district anticipates a reduction in chronic absenteeism and an increase in the percentage of students meeting the Third Grade Reading Guarantee and secondary graduation requirements.

Board Policy Development and Adoption

Proposals regarding Board policies and operations may originate at any of several sources, including students, community residents, employees, Board members, consultants or civic groups. A careful and orderly process is used when examining policy proposals prior to Board action.

The formulation and adoption of written policies constitute the basic method by which the Board exercises its leadership in the operation of the District. The study and evaluation of reports concerning the execution of its written policies constitute the basic method by which the Board exercises its control over District operations.

The formal adoption of policies is recorded in the minutes of the Board. Only those written statements so adopted and recorded are regarded as official Board policy.

Final action by the Board on proposals shall be in accordance with this policy. The Board takes action on most matters on the basis of recommendations presented by the Superintendent.

The Superintendent bases his/her recommendations upon the results of a study and upon the judgment of the staff and study committees.

Policies introduced and recommended to the Board should not be adopted until a subsequent meeting in order to permit further study and provide opportunity for interested parties to react. However, policies may be adopted at the first meeting at which they are presented in order to address emergency conditions or special events or as otherwise deemed appropriate by the Board.

Unless otherwise specified, a new policy or policy amendment is effective as of the date of adoption by the Board and supersedes all previous policies in that area. Unless otherwise specified, the repeal of a policy is effective as of the date the Board takes such action.

Editorial Revisions

The Board recognizes that editorial revisions to existing policies or regulations may be required from time to time. These revisions are confined to changes that do not alter the substantive meaning or application of a policy or regulation.

Editorial revisions may include, but are not limited to:

1. Retitling sections or policies, including changing the policy codes assigned by the Board for organizational purposes. This also includes corrections to internal cross-references when sections or policies are retitled or recoded;
2. Correcting clerical errors, including grammatical, typographical, formatting, or other non-substantive alterations or omissions;
3. Updating the name(s) of individuals serving as District contacts, provided that the position or title remains consistent with that identified in applicable Board policy;
4. Replacing terms with updated terminology when such changes do not change the intent of the policy but are administrative in nature, such as terminology used for staff classifications;
5. Updating the name of a state agency or governmental body when such name has been changed by legislative or

regulatory action and

6. Updating statutory or regulatory citations when amended or renumbered by law.

The Superintendent is authorized to identify and implement such editorial revisions as described herein. Upon completion of any revisions, the Superintendent prepares and submits to the Board a written summary of the changes.

Should the Board determine that any revision constitutes a substantive change, such amendment is processed in accordance with Board policy.
